

Letter of appreciation

Dear Sirs

As installers of building technology systems we must meet extremely strict safety and quality requirements.

Therefore, since 1999 we have had the pleasure of doing business with Bajog electronic GmbH. During this period, Bajog supplied us with filters such as customized data line filters of various types for a number of military projects. These products fulfilled our high quality standard.

Bajog electronic demonstrated a high degree of flexibility and quality.

We express our thanks to Bajog electronic GmbH for their cooperation, support and attentive customer service.

Yours sincerely
VA TECH ELIN EBG GmbH
